

## Panelist

**Kenneth I. Moch**  
**President and CEO**  
**Chimerix, Inc.**

Kenneth Moch joined Chimerix in 2009 as COO and was named President and CEO in April 2010. He has more than 30 years' experience in the biomedical arena and has participated in building several companies. Previously, Mr. Moch founded Euclidean Life Science Advisors, a provider of strategic advisory services, where he was most recently President and CEO of BioMedical Enterprises, Inc. He served as Managing Director, Healthcare Investment Banking, at ThinkEquity Partners and as President and CEO of Alteon, Inc., a company specializing in small molecule therapeutics. As President and CEO of Biocyte Corporation, he pioneered the storage and therapeutic use of cord blood stem cells and launched the first cord blood stem cell bank. Additionally, Mr. Moch was a co-founder of The Liposome Company, Inc. and a management consultant with McKinsey & Company. Ken currently serves on the Board of the Biotechnology Industry Organization and is a past Chairman of BioNJ. He is a member of the Board of Directors of M2Gen, a for-profit wholly owned subsidiary of the H. Lee Moffitt Cancer & Research Institute. Mr. Moch holds an A.B. in biochemistry from Princeton University and an M.B.A. from Stanford University.
