# COVID-19 INNOVATIONS: NEW JERSEY MEETS JERUSALEM

Join Choose New Jersey, The New Jersey-Israel Commission, BioJerusalem and BioNJ for a webinar that will launch discussions between New Jersey and Israeli biotech companies that are developing new technologies to help the world combat COVID-19 with an opportunity for insights into their respective projects from potential partners and investors.

The State of New Jersey and the State of Israel have experienced a long and well-established strategic partnership. Most recently, Choose New Jersey hosted a New Jersey business delegation to Israel, where we had the privilege of being hosted by BioJerusalem and began a collaborative relationship.

**Date: Monday, June 1, 2020**

**Time: 8:45-10:30 EST | 15:45-17:30 IST**
